We enjoy working with our patients as a team to achieve excellent dental health. We can do this by:

1. Promoting your dental health through patient education and prevention.
2. Preserving a healthy, youthful appearance through the preservation of the teeth and gums.
3. Helping to maintain our patient's general health by controlling any disease of the teeth, gums, and jaws.

We are so pleased to have people like yourself who understand that the Doctor-Patient relationship is a vital part of your overall dental health. We are always here to address your concerns and answer any questions you may have.

We welcome your kind referrals of friends and family and promise to treat them with the same professional courtesy we will continue to offer you.

Please print and complete the attached paperwork and bring with you to your appointment. In addition, if you have dental coverage, please bring your insurance identification card as well.
